BK POINTER

Smart control for everyday rides.

BK POINTER is built for front-end precision and comfort, offering excellent handling, balanced grip, and durability for daily city commutes and light rural roads.

Sporty directional tread pattern: dependable grip in both dry and wet conditions, while promoting uniform wear for long-term, stable performance.

Single-radius contour design: ensures smooth maneuverability and consistent steering feedback, allowing riders to maintain control through traffic, turns, and variable surfaces with confidence.

Extended shoulder design: provides added traction and lateral support when cornering, enhancing rider safety and improving control even under sudden or sharp turns.

Optimized for daily commuting: lightweight and reliable, BK POINTER offers predictable performance and riding comfort on paved roads and moderately rough surfaces alike. Its durable construction ensures consistent behavior through frequent braking, weather changes, and everyday wear thus delivers high mileage.

	Tire size	RIM (Rec)	Inflated Tire Dimensions		Type	Load Index	Speed Index	Maximum Load Carrying Capacity (kg)	Maximum Speed (kmph)	Inflation Pressure (psi)	Tire Fitment
			S.W. (mm)	O.D. (mm)							
											
Ø 17"	2.75-17	1.85" x 17"	77	592	TT	41	P	145	150	33	Front
Ø 18"	2.75-18	1.85" x 18"	78	617	TT	48	P	180	150	41	Rear

Tolerances: S.W. $\pm 2.0\%$ - O.D. $\pm 1.0\%$
S.W. = Section Width; O.D. = Overall Diameter;

TT: Tubetype
